To: All Parents

From: Michael Granillo, Principal  
      Darla J. Becker, RN, BSN, CSN, School Nurse Consultant

During the school year at one time or another, your child may need to take medication while at school.

In order to ensure proper safety for your child, the Arizona State Board of Nursing and the Arizona State Board of Pharmacy has issued a procedure for handling medications in schools which assures compliance with existing rules and regulations.

The following form meets these rules and regulations. If your child needs medication given at school, please complete the following form and return the day the medication is to begin.

Please request that the pharmacist provide a second labeled bottle for school only.

Thank you for your concern in this matter.

**Parent’s Consent for Giving Medication at School**

I hereby request and give my consent for the nurse or person designated by the administrator to see that my child ______________________ receives the medication prescribed by ______________________ for the period from _______ to _______. The medication is to be furnished by me in the original container and is to be labeled with:

1. Name of medicine_____________________________________________________
2. Amount to be given____________________________________________________
3. Time of day to be taken________________________________________________
4. Expected duration of treatment_________________________________________
5. Health Provider’s name on label, if prescription_____________________________
6. Reason for medication_________________________________________________
7. Other medication (s) currently being taken_______________________________
8. Allergies________________________________________________________________

The school nurse/administrator has my permission to contact the above provider regarding medication.

YES  NO
