

Washington DC Trip

Spring 2023

In May 2023, students in 7th and 8th grade at MCS will be departing on a 7 day trip across the country to visit Washington DC, Gettysburg, and Philadelphia. While there, students will have an opportunity to visit important historic sites like Ford's Theatre and the Gettysburg battlefield, incredible memorials, and museums like the Smithsonian and Holocaust museum.

For many of our students, this truly is a once-in-a-lifetime trip where they are able to see these important sites and connect it to what they have been learning in the

classroom. They can experience the history they have been learning about and gain a richer understanding of our country's heritage and what it means to be an American. This experience sticks with students for years and informs how they choose to be involved as a citizen of our country and how they carry that legacy forward.

If you would like to support these students as they raise money for this trip, please contact us! Donations can be made for the class as a whole or for individual students. Please make out a check to *Mountain Christian School* or stop by our school to discuss alternate means of support.

Thank you for investing in the next generation!
